THREE BOLD JEWELS

- ⚙ The harshest judges are usually secretly the worst offenders.
- ⚙ The greatest, most significant truth will always be the truth you tell yourself.
- ⚙ The best people bring out the best in you. The worst people do the opposite.
- ⚙ How many times should a person forgive a person who trespasses them? The Bible says you should forgive a trespasser not seven times but seventy times seven.

Judge Denies Bond For Top Atlanta Veneer Tech Brandon Dillard

News Feature

Charges Upgraded to RICO for Fake Atlanta Dentist

On October 03, 2024, investigators raided the Atlanta dental office of 31-year-old Brandon Dillard, who they arrested the same day. Less than a month later, a jury indicted him on 113 counts. A RICO charge has now been added, significantly upping the stakes and meaning he could face life behind bars. The charges stem from an allegedly unlicensed veneer practice called **A List Smiles Atlanta** run by Dillard. Apparently, some of his victims weren't happy.

As far back as 2021, Dillard had been running his illegitimate practice. Channel 2 Consumer Investigator Kristi Brown spoke with one of the victims. The victim said she paid Dillard \$3,000 for partial veneers. She had planned to go back to have more teeth done, but her dentist raised an alarm during a regular cleaning.

WSBTV.com has listed Dillard's charges found in the Fulton County court records. The indictment lists 113 counts. He is currently out on bail.

More Americans Join the Tech Field, Even with AI Looming

Tech workers make up about 7 percent of the workforce. Collectively, that's over 16 million people making our lives easier. As the unemployment rate ticks past 4.6 percent, more Americans are finding careers in technology. Cybersecurity and product management are the primary areas of growth. Humans increasingly need to reinforce web security where even AI fails. Moreover, product management requires the intelligence to detail AI can't readily recreate. What makes it better is, many of the classes or courses to learn these skills are free.
